About Me

I have been involved in the development field for over 2 years, gaining substantial experience. During this time, I have focused on Magento (2.0) standards and specialized in custom theme development as well as paid theme customization. I possess the ability to manage the entire development process, encompassing UI designing, development, and thorough testing.

Professional Experience

Magento 2 Frontend Developer (Magemen) APRIL 2021 - PRESENT

I am a professional Magento 2 front-end developer with a strong background in website design and development. Currently, I hold the position of a senior front-end developer in my company, where I have successfully completed numerous projects focusing on Magento 2 front-end development. With over two years of experience in this field, I have gained extensive knowledge and expertise in creating visually appealing and user-friendly websites. Moreover, I have recently taken on the role of a team lead, where I guide and supervise a group of developers, ensuring seamless collaboration and the delivery of high-quality projects. My passion for front-end development and my leadership skills drive me to excel in my role and contribute effectively to my company's success.

Web Developer (FREELANCER)

MARCH 2019 - APRIL 2021

In addition to my professional experience as a senior front-end developer in my current company, I have also worked as a freelancer in front-end web development for a considerable period of time. During this period, I have successfully undertaken and completed numerous projects, where I have played a pivotal role in designing and converting website layouts into visually appealing and highly functional interfaces. My expertise and skills in front-end development have enabled me to deliver exceptional results and meet the expectations of my clients. This diverse experience has further strengthened my abilities as a front-end developer and has allowed me to contribute effectively to various projects.
